

Instructions

Supplementary Material

Most Lectures have supplementary material with them like ZIP files and PDFs and Text Files containing source code, instructions etc. Please go through the material if you feel any doubts in the lecture. It's made for the sole purpose of helping you and making you understand better.

Quizzes

Please attempt all the quizzes with 100% concentration as they help you retain what you learn.

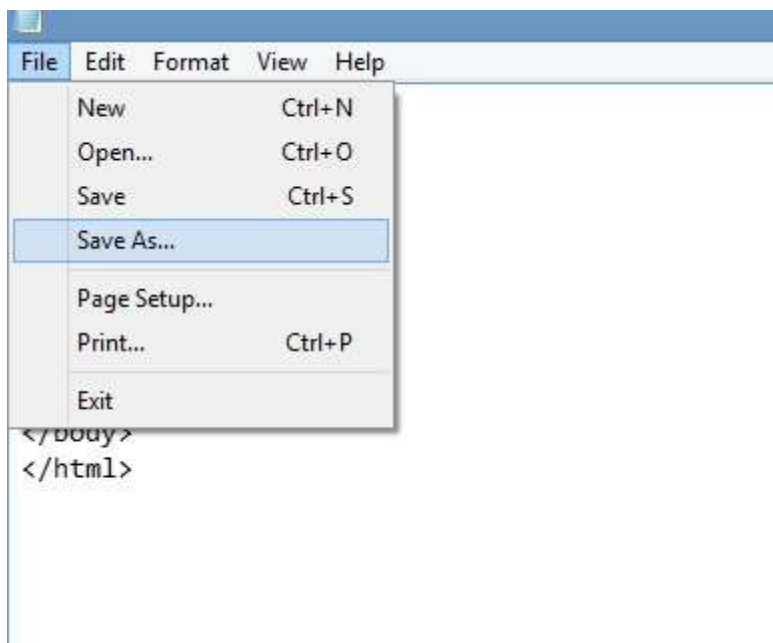

FAQs (Frequently Asked Questions)

Question 1 : Where do I have to write the code you are showing in the video?

Answer: You have to write the code in any text editor like Notepad, Sublime Text etc.

Question 2: How do I view my code in the browser?

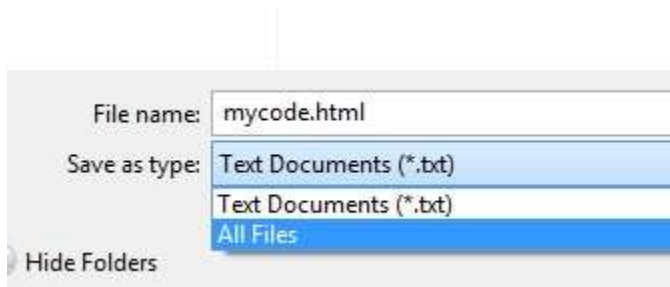

Answer: Let your filename be "mycode". Just save the text file containing your code with the name "mycode.html". And then open the file "mycode.html" with any web browser like Google Chrome, Firefox etc. See the pictures below for more help.
